Takka Productions: Front End Website Developer, Hove

Whilst at Takka my role was the sole Front End Developer working on a range of projects from small start-ups, through to ongoing large scale sites. I helped maintain the quality of websites by ensuring they display attractively on multiple devices and browsers. During these projects, I developed a greater understanding of Javascript and worked with the Angular 2 framework.

Refugee Week: Freelance Website Developer

I worked with Refugee Week to convert their existing website, built on a proprietary CMS, into a new Wordpress build. This included creating a new Wordpress theme, using and customising several plugins. As well as developing front and back end components, I also made arrangements for hosting and deployment.

SCA Worldwide: Junior Website Developer, Hove

Whilst at SCA Worldwide, I had the opportunity to work on websites, apps and flash ads. I created apps using PhoneGap, and demonstrated competency with IDE's such as Xcode and Eclipse. I was also able to leverage my skills as a Flash developer to create ads using DoubleClick and Sizmk for clients such as the Post Office.

Brighton WordPress: Website Developer, Hove

I undertook a two month work placement with Brighton WordPress. I worked on building templates for WordPress and maintaining live websites. An example of a website I worked on is Headmasters.
